English Level: Intermediate English B2.

## PROJECTS

### Full Stack Web Developer - PIVideoGames

November. 2023 - December. 2023

Academic experience. Henry Bootcamp

Web page designed with JS with the purpose of showing different video games brought from a rawg API, filtering, pagination, creation and search as well as other utilities and a basic design for its presentation. Likewise, in a larger project, we worked on the creation of a platform for managing student enrollment for a school that remained in deploy and is available.

Front: React-Redux

Back: Axios-Express-Node

Database: PostgreSQL and Sequelize.
